SUMMARY

Motivated and passionate Full Stack Web Developer with hands-on experience in building dynamic web applications using MERN stack and MySQL. Skilled in front-end development with HTML, CSS, JavaScript, Bootstrap, and back-end development with Node.js & Express.js, along with database management in MySQL and MongoDB. Proficient in developing responsive websites, implementing CRUD operations, authentication, and admin panels. Dedicated to continuous learning, fitness-driven discipline, and consistent content creation, combining creativity with technical expertise.

EDUCATION

Bachelor of Computer Applications (BCA)

Savitribai Phule Pune University

📅 08/2022 06/2025 📍 Ahmednagar

WORK EXPERIENCE

A2Z IT Hub Private Limited

📍 Ahmednagar

Currently working as a Web Development Intern, gaining hands-on experience in Full Stack Development using MERN stack, Node.js, Express.js, MySQL, HTML, CSS, JavaScript, and Bootstrap. During my internship, I have worked on multiple real-world projects including:

- ND Photography** A dynamic photography website with admin panel and content management.
- RG Fitness Personal Project** A fitness-focused website showcasing workout and nutrition content.
- Child Vehicles eCommerce** An eCommerce platform with product listing, cart, and checkout functionality.

This internship is helping me strengthen my technical skills, project management abilities, and teamwork experience, preparing me for a professional Full Stack Developer role.

INTERESTS

Gym training

Daily workout discipline and fitness.

SKILLS

HTML	CSS	Bootstrap	JavaScript
Node.js	MYSQL	MongoDB	

PROJECTS

ND- Photography

📅 06/2025 07/2025

Developed a full-stack photography portfolio website using Node.js, Express, EJS, and MySQL with an admin panel for content management.

- Implemented dynamic modules including Home Page, About Page (banner, bio, philosophy, equipment, awards, behind the scenes) with file upload functionality for images and text content.
- Built responsive frontend with HTML, CSS, Bootstrap, and JavaScript ensuring a seamless user experience across devices.
- Designed and integrated CRUD operations for admin users to update portfolio content dynamically.

RG Fitness Mantra

📅 07/2025 08/2025

Developed a personal fitness-focused website designed to share workout routines, nutrition tips, and healthy lifestyle guidance. The site highlights user-friendly navigation, responsive design, and structured content sections for easy accessibility across devices. Built using HTML, CSS, JavaScript, and Bootstrap, with an emphasis on clean UI and engaging presentation. This project reflects both my technical skills in front-end web development and my passion for fitness and content creation.

Child Vehicles

📅 08/2025 08/2025

Developed a complete eCommerce platform for child vehicles, bicycles, and motorcycles with features like product catalog, cart management, and checkout process. Implemented responsive front-end using HTML, CSS, JavaScript, and Bootstrap, and managed the back-end with Node.js, Express.js, and MySQL for product and user data handling. The project showcases skills in full-stack development, database integration, and user experience design.
